Allowable Subject Matter

1. Claims 1 and 20-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: applicant's arguments are persuasive, especially concerning the adjustable mirror. The newly cited references to Taillie, Cresens et al, and Brook et al, while showing movable and/or pivotable mirrors associated with scanning devices, do not teach a lens array between first and second parallel surfaces, or alternative illumination of a video display and scanline, and modification of the references to include such features would not have been obvious to one ordinarily skilled in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
